EDUCATION

Northeastern University, Boston, MA
MPS in Analytics (Applied Machine Intelligence) — *Expected 2027*

Vellore Institute of Technology (VIT), Vellore, India
Bachelor of Technology (B.Tech), Electronics and Communication Engineering — *May 2024*

TECHNICAL SKILLS

- **Programming & Analytics:** Python (Pandas, NumPy), SQL
- **Data Visualization & BI:** Power BI, Tableau, Matplotlib, Seaborn
- **Databases & Data Warehousing:** MySQL, Microsoft SQL Server, Snowflake, NoSQL
- **Tools & Platforms:** Excel (Pivot Tables, Power Query), Jupyter Notebook, VS Code, Git/GitHub
- **Machine Learning & Statistics:** Scikit-learn, Regression, Classification, Hypothesis Testing, A/B Testing

EXPERIENCE

KPMG, India
Analyst – Digital Trust / Risk & Compliance Analytics | *Jul 2024 – Dec 2025*
Data Analytics Intern | *Jan 2024 – Jul 2024*

- Performed end-to-end data analysis on **500K+ records** to support governance and compliance reporting. Automated reporting workflows, reducing manual effort by **20–25%**.
- Built SQL queries optimizing data extraction time by **25%**. Wrote complex SQL queries (joins, CTEs, window functions) to extract, clean, and validate data from relational databases for business reporting.
- Built automated reporting workflows using Python (Pandas, NumPy) and Excel, improving reporting accuracy and reducing manual effort.
- Conducted data quality checks and anomaly detection to ensure audit-ready deliverables and consistent reporting.

PROJECTS

SaaS Funnel Leakage and Revenue Impact Analysis | (Python, Pandas, Data Visualization)

- Built and analyzed a **20,000-user SaaS** event dataset (**229K+ records)** to evaluate end-to-end customer funnel performance. Conducted funnel analysis across acquisition, activation, trial, and subscription stages to identify conversion bottlenecks
- Identified **43x** higher paid conversion among activated users and modeled **$296K** annual revenue uplift from activation improvement. Performed segmentation analysis by acquisition channel and device, uncovering **$377K** ARR opportunity from Paid Social optimization
- Diagnosed **2.5x** higher mobile payment failure rate impacting subscription growth, estimating **$89K** recoverable ARR. Generated data visualizations and KPI dashboards to communicate actionable business insights
